### ILSSA Meeting

- I. Wiki Website—Someone added a Wiki Related Calendar that we decided was redundant to the Wiki Website, as there was already an ILSSA events calendar and also if there was a Wiki calendar it would need to be put in Current Events instead of a separate calendar (waste of space). Additionally, it would probably be very difficult to edit the calendar as it is in wiki language that most won't understand. It's a good idea because most people would then be able to add to it (now everyone has to go through us, but would it be better to go through us, anyway?)
