Full Framework: CUTT-AD-DDV

Given, and should be identified by designer
- Context
- User
- Task
- Data Types

Generally known
- Human Abilities (perception, memory, cognition)
- Design Principles

These you have some control over
- Data Model
- Display
- Visualization Techniques
CUTT-AD-DDV Visualization Framework

**Design Process**
- Iterative design
- Design studies
- Evaluation

**Design Principles**
- Visual display
- Interaction

**Data Model**
- Display(s)
- Visualization Techniques

**Human Abilities**
- Visual perception
- Cognition
- Memory
- Motor skills

**Context**
- User
- Tasks
- Data Types

**Design Process**
- Inform design
- Imply design
- Constrain design

**Given**

**Chosen**
