

INLS 523 Database I

Project Part 2: Due on or before Tuesday, October 29th.

Please submit your answers in electronic format to the TA: pu@email.unc.edu.

Task

Please convert the data model you created for your project to a database schema. Include in the schema the following items.

Deliverable 1: For each table the complete list of attributes. Indicate primary keys.

Deliverable 2: Specify for each attribute their domains and constraints.

Deliverable 3: Describe any referential constraints associated with each table/attribute (foreign keys).

You may define your schema in MS Access or create it using a simple word-processing tool.
