INLS 523 Database I

Project Part 2: Due on or before Thursday, November 13th.

Please submit your answers in electronic format to the TA: chunxiz@live.unc.edu.

Task

Please convert the data model you created for your project to a database schema. Include in the schema the following items.

Deliverable 1: For each table show the complete list of attributes. Indicate primary keys.

Deliverable 2: Describe any referential constraints associated with each table/attribute (foreign keys).

Use the format below for your schema. Note: the format below is provided to guide you (your schema will have different tables and fields).

Figure 5.7
Referential integrity constraints displayed on the COMPANY relational database schema.
