HTML5 and CSS

Which takes you to a source of templates

We'll use this one as an example

The screenshot shows a web browser window with the URL [www.html5webtemplates.co.uk/templates.html#U34j8PldV8E](http://www.html5webtemplates.co.uk/templates.html#U34j8PldV8E). The page title is "FREE HTML5 TEMPLATES". The navigation menu includes "Home", "HTML5 Templates", "HTML5 Resources", "FAQs", "Blog", and "Contact".

The main content area features a section titled "FREE HTML5 Templates" with a counter showing "654" templates. Below this, there is a paragraph explaining that all designs are open source and free to use, with a note to leave a link to the website or provide a donation to remove the footer link.

There are two main categories of templates listed:

- Web Design Templates**: A link to "poweredwebsite.com/Live-Chat" with a right-pointing arrow.
- Simplestyle Horizon**: A new template described as "elegantly muted and subtle design". It includes links for "View Simplestyle Horizon" and "Download Simplestyle Horizon".
- Simplestyle Blue Trees**: A "subdued yet classy blue-themed template". It includes links for "View Simplestyle Blue Trees" and "Download Simplestyle Blue Trees".

On the right side of the page, there is a vertical stack of four black circles with white text: "CREATE", "FREE", "websites", and "CLICK HERE>". The "CLICK HERE>" circle is orange and has a blue arrow pointing to it from the bottom of the page.

The Windows taskbar at the bottom shows various application icons, including Internet Explorer, Firefox, and several instances of Microsoft Word. The system tray on the right shows the desktop name "R.E. Bergq", the language "ENG", and the time "12:31".

It will

Extract the zipped  
files to a new folder

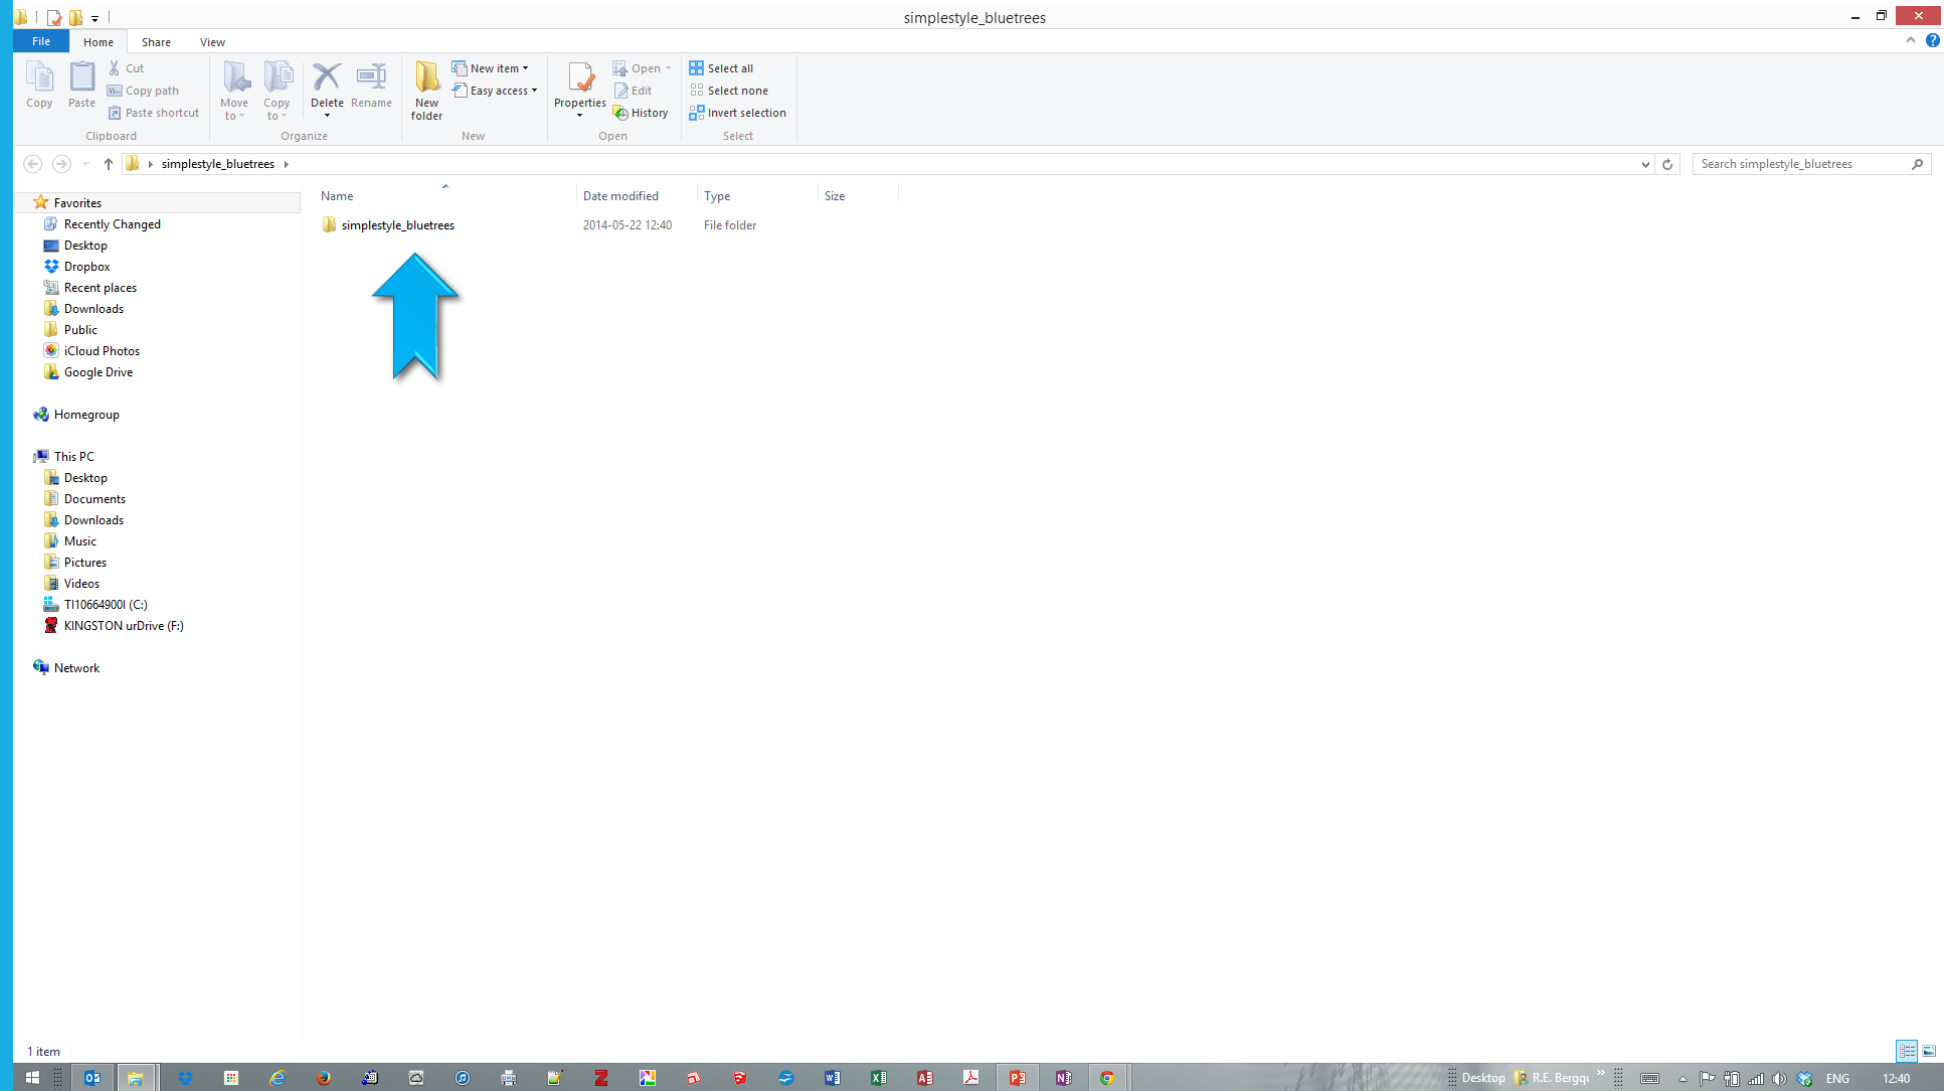

It must  
be  
unzipped

It will be extracted to  
a folder with the  
same name, in the  
same location

# Once extracted

You can begin to explore the folder

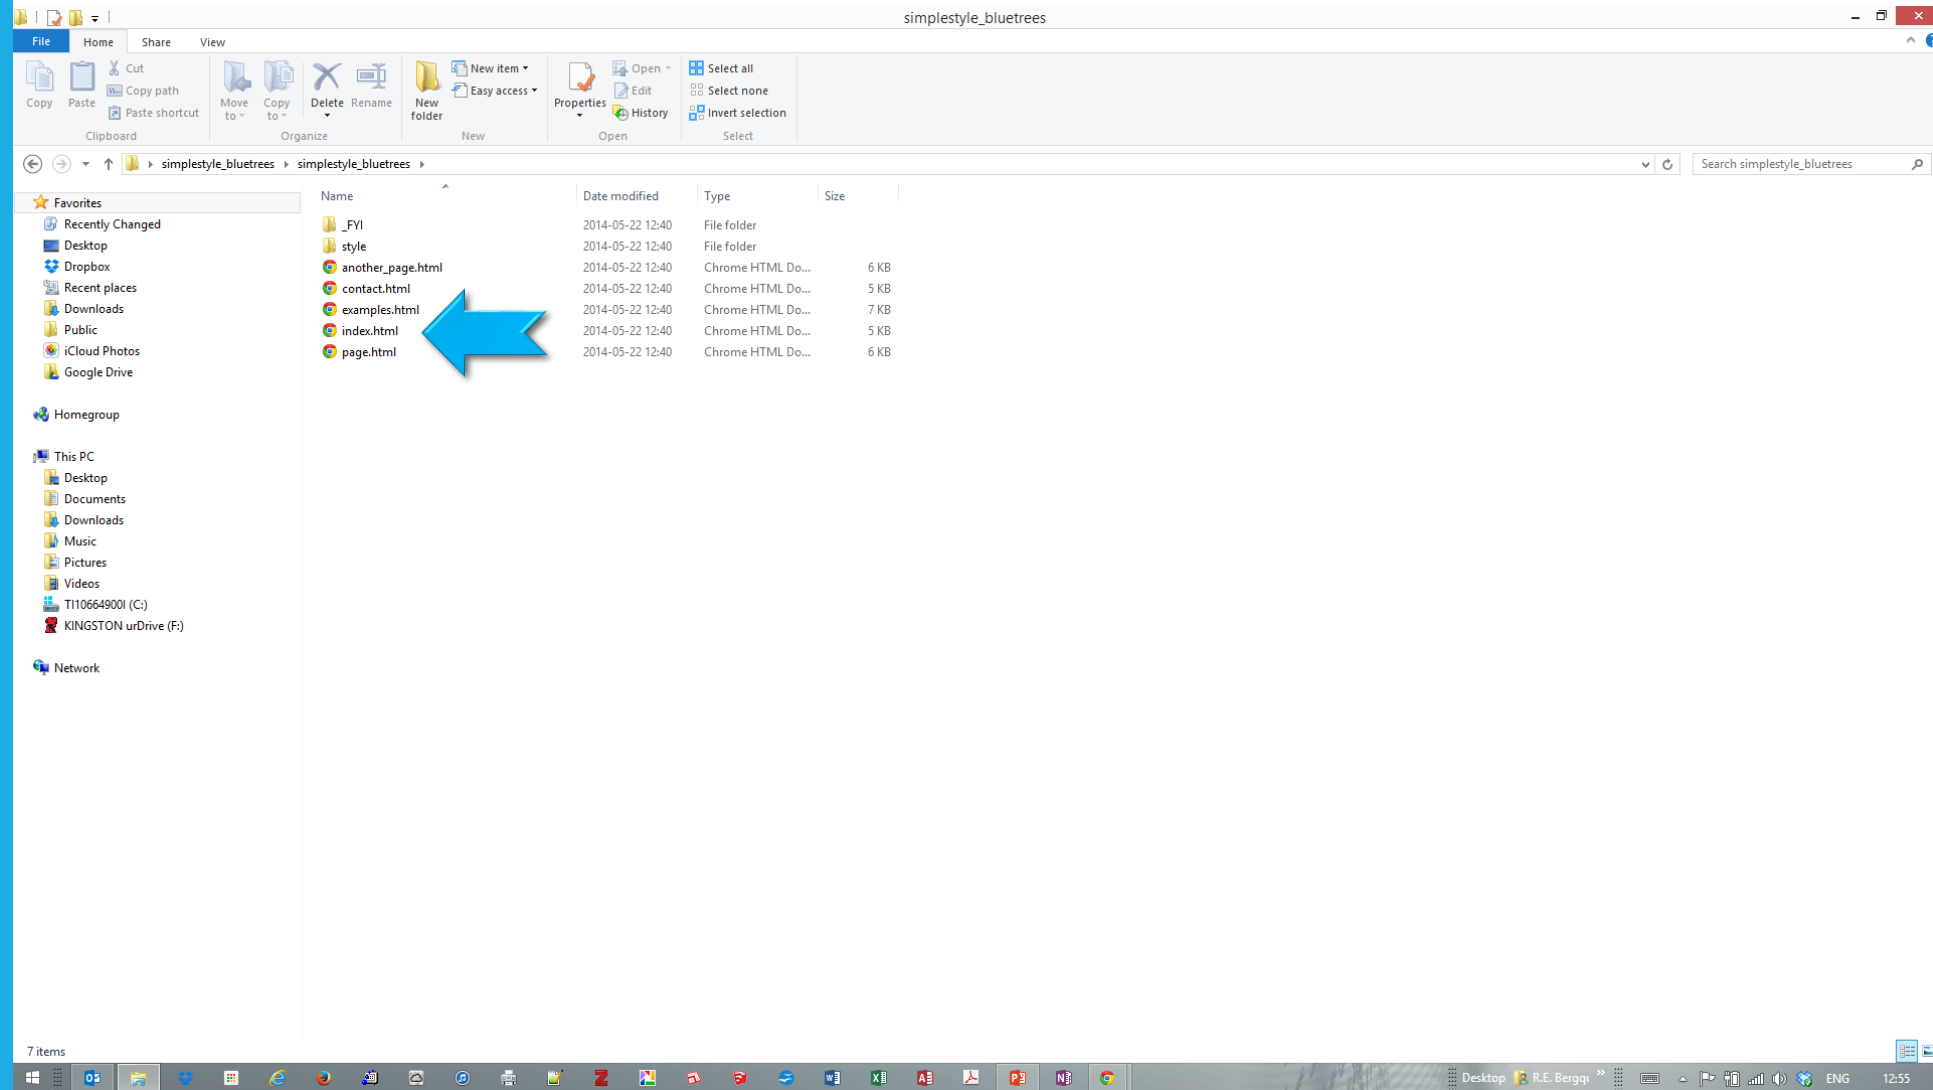

# This is my folder

I can see that I have five sample pages and a folder for the CSS info.

I'll focus on the sample pages first.

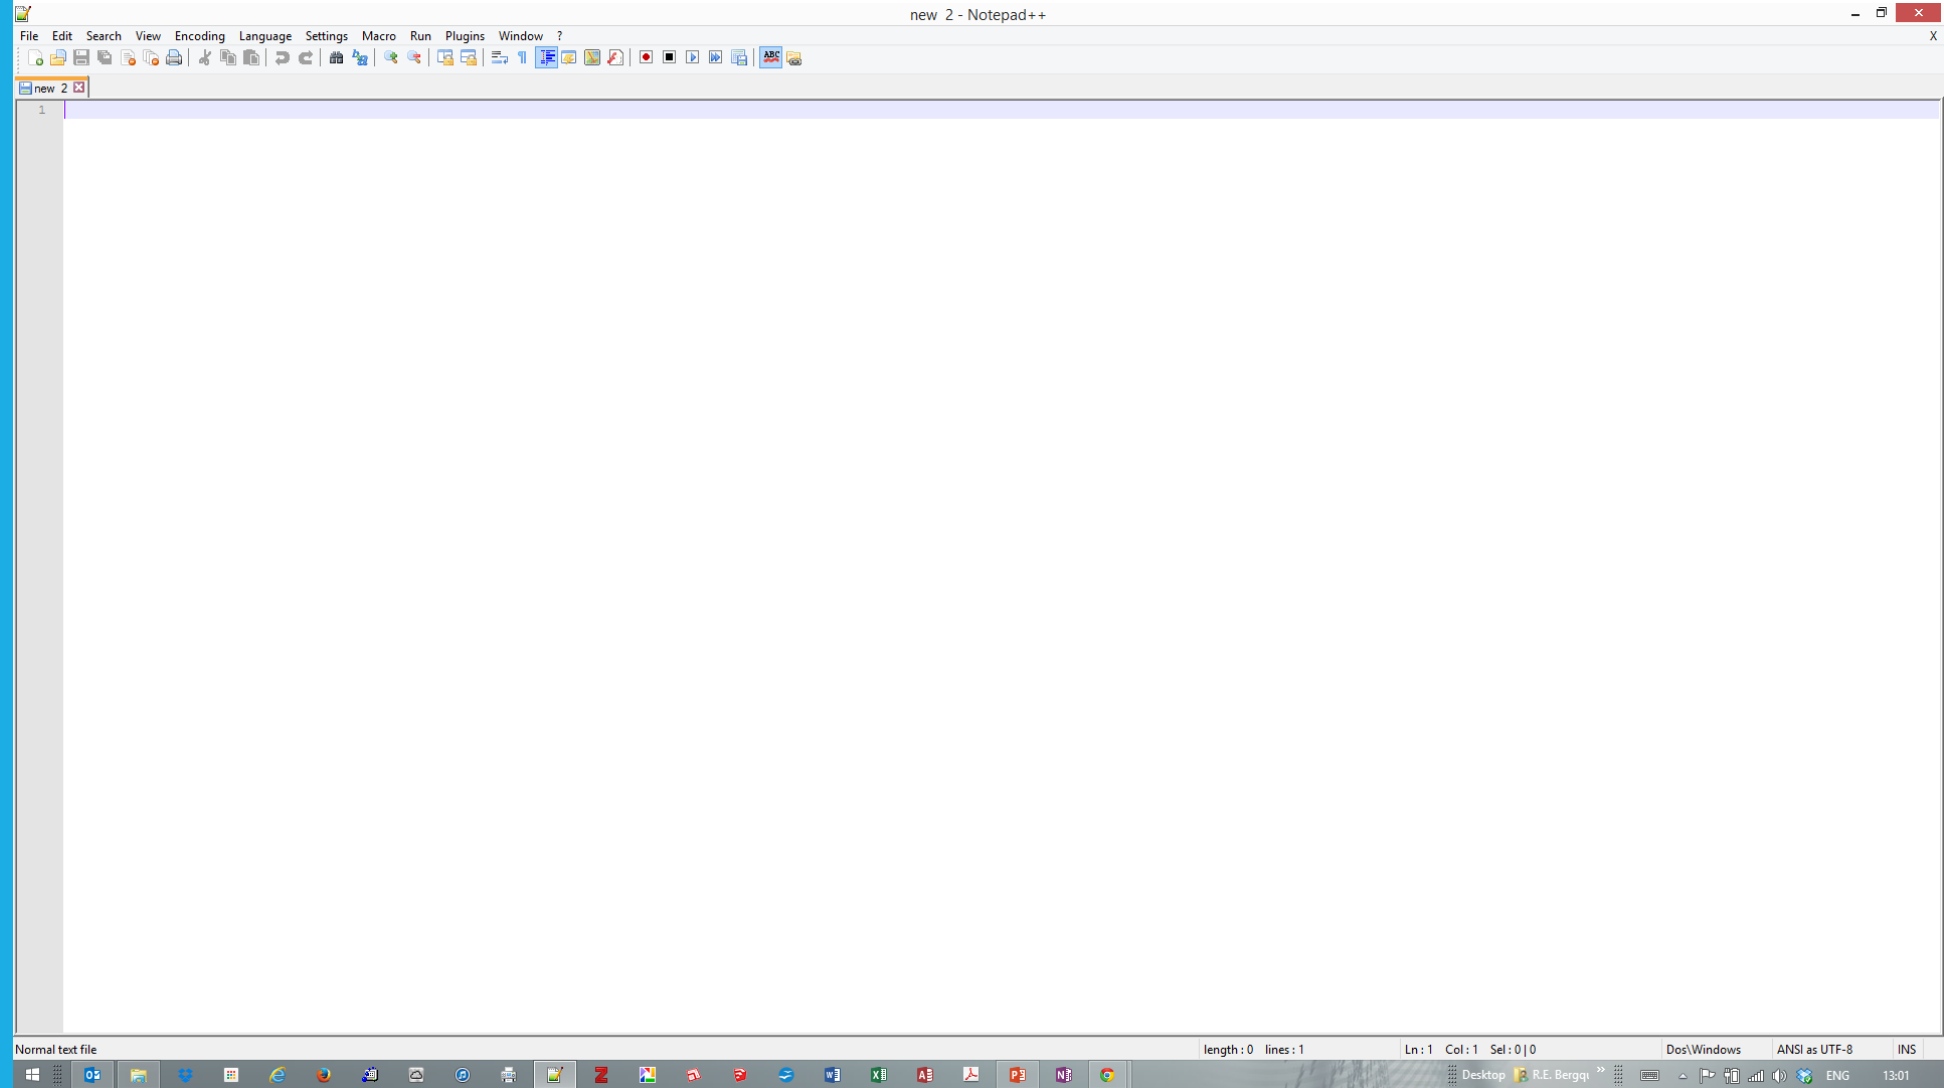

I will use a text editor to open the index page.

# Text editor

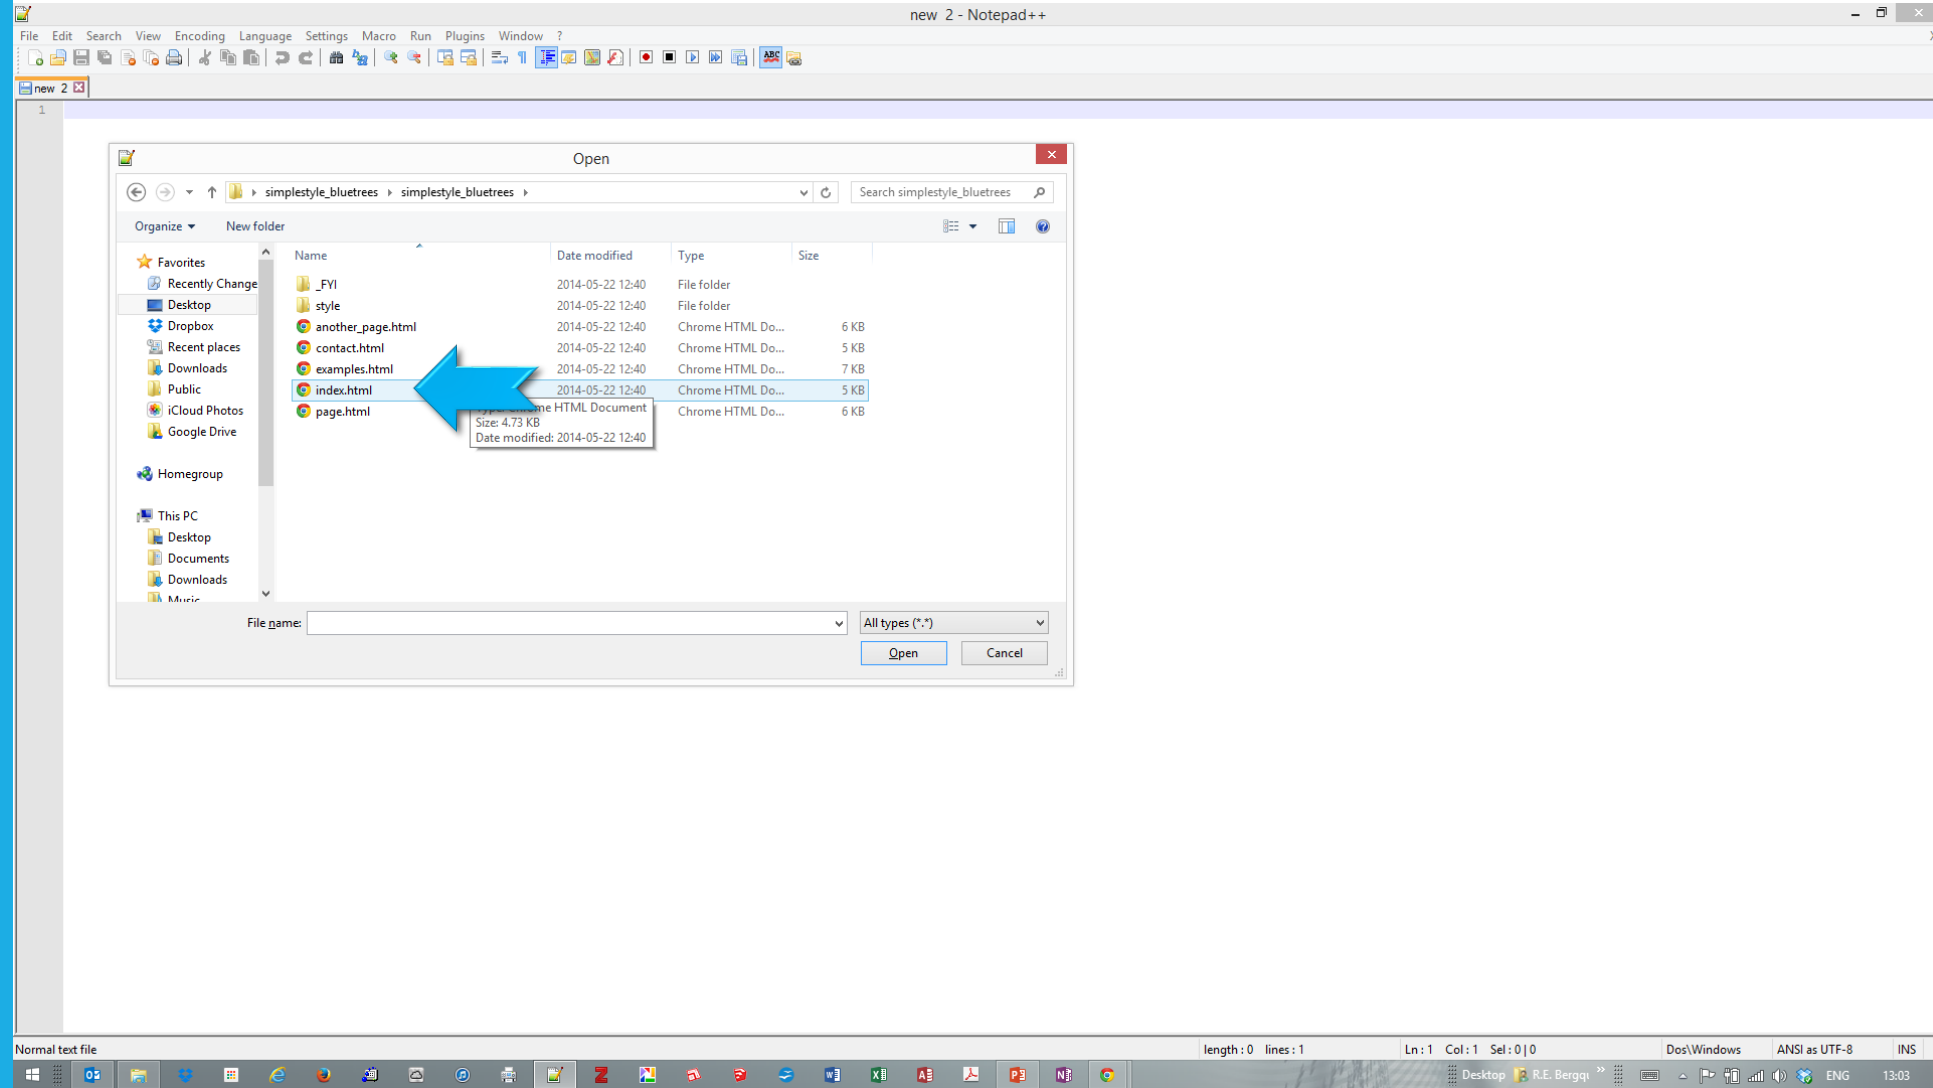

I'm going to use Notepad ++ as my text editor

First I need to open the index page by using the keyboard shortcut CNTL+O

To  
navigate  
to the  
folder

And select the page  
to open.

Now I have the page open in an editor

Look over the code to see what is where.

But before you do anything, save a copy of this file, in case you need the original later.

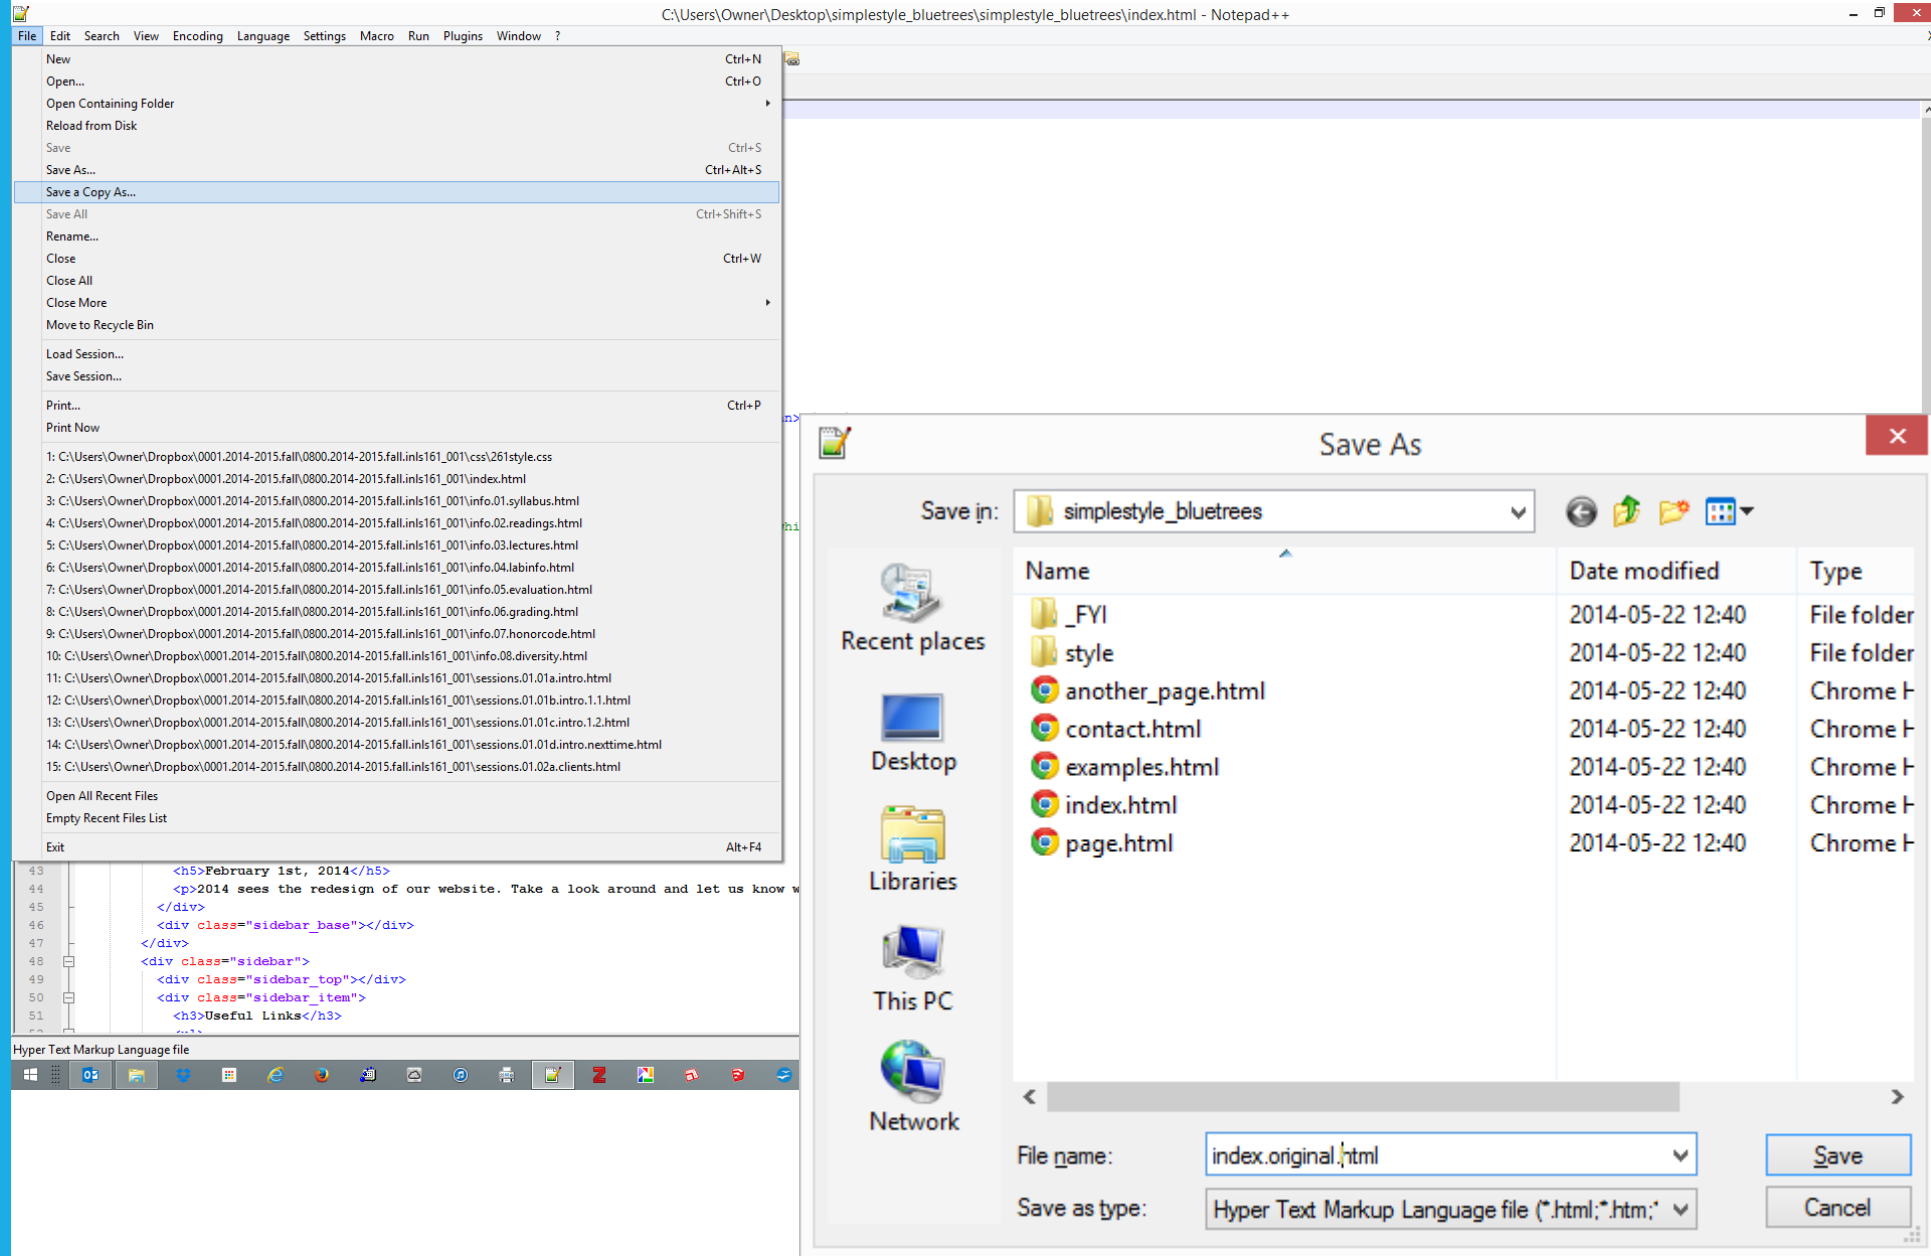

Go to the file menu

**Welcome to the simplestyle\_blue\_trees template**

This standards compliant, simple, fixed width website template is released as an 'open source' design (under a [Creative Commons Attribution 3.0 Licence](#)), which means that you are free to download and use it for anything you want (including modifying and amending it). All I ask is that you leave the 'design from HTML5webtemplates.co.uk' link in the footer of the template, but other than that...

This template is written entirely in HTML5 and CSS, and can be validated using the links in the footer.

You can view more free HTML5 web templates [here](#).

This template is a fully functional 5 page website, with an [examples](#) page that gives examples of all the styles available with this design.
