

Instructor: Megan Threats

Email: meganv@live.unc.edu

Office hours: By appointment (please email)

Class Meetings: Mon & Wed, 2:30-3:45pm

Location: 304 Manning Hall (3rd Floor)

School of Information and Library Science (SILS)

Course website:

<https://sakai.unc.edu/portal/site/inls203spring2018>

Course Description

Introduction to foundational and core concepts of human information behavior, including models of information seeking behavior, information needs and use, user-centered design, and human computer interaction.

Rationale for Course

Human information behavior is an umbrella concept encompassing all aspects of information searching, encountering, seeking and use. This canopy covers a wide array of topics such as information needs and barriers, information seeking process and models, and information use. Knowledge about how people interact with information and how the interaction is mediated by technology is fundamental to the broader field of information science in that it focuses on the human component of the information—human—technology framework.

Course Objectives

- Generate interest in current research topics in human information behavior, including models of information behavior, information needs, relevance, incidental information acquisition, information bias, information contexts, and information behavior and technology.
- Explore ways in which information is created, disseminated, exchanged, and used in a variety of contexts and how the use of information is affected by those contexts.
- Obtain a theoretical foundation for practical applications.
- Describe the role and impact of technology in communication.
- Refine critical thinking and problem-solving skills related to information seeking and communication.

Course Content

This course comprises three modules:

- Foundations of human information behavior
- Human information behavior in various life contexts
- Technology and systems supporting human information behavior

Course Materials

The **required textbook** for this course is:

Case, D.O., & Given, L.M. (2016). *Looking for information: A survey of research on information seeking, needs and behavior*. 4th ed. Bingley, UK: Emerald.

One copy of the book is on reserve in the SILS library, and the book is available for purchase in the UNC Student Stores. Additional assigned readings are listed on the course schedule, and will be available electronically, through the UNC libraries, or the Sakai site for the course.

Course Structure

Students will be expected to complete readings in preparation for each class meeting, and be prepared to discuss the material. On most days, class sessions will be comprised of:

- A review of assigned readings and most pertinent concepts.
- Class discussion
- In-class activities (e.g. – group discussion, peer commenting, apply concepts to current events or scenario)
- Individual and group presentations

Class Schedule

Class	Date	Topic	Required reading/viewing materials	Assignments Due
1	1/10 W	Introduction and Course Overview		
January 15: MLK Holiday – No classes				
2	1/17 W	What is human information behavior?	Case, D.O., & Given, L.M. (2016). <i>Looking for information. A survey of research on information seeking, needs and behavior</i> . 4th ed. Bingley, UK: Emerald. Chapter 1 “Information Behavior: An Introduction” (pp. 3-15)	Groups of 3-4 students will choose from the following models to present on 1/24: <ul style="list-style-type: none"> • Standard model of the search process (Broder, 2002) • Norman's cognitive execution-evaluation model (Normal, 1988) • Berry-picking model (Bates, 1989) • Information seeking model (Kuhlthau, 1991) • Information foraging theory (Pirulli and Card, 1999)
3	1/22 M	Models of information behavior - 1	Case, D. Chapter 7 “Models of Information Behavior” (pp. 141-175)	
4	1/24 W	Models of information behavior - 2	Hearst, Marti. (2009). Models of the Information Seeking Process. In Hearst, M. <i>Search User Interfaces</i> . Cambridge University Press. (link) <ul style="list-style-type: none"> • Read sections 3.1 through 3.6 	Groups will present an overview/synopsis of scaffolding models: <ul style="list-style-type: none"> • Standard model of the search process (Broder, 2002) • Norman's cognitive execution-evaluation model (Normal, 1988) • Berry-picking model (Bates, 1989) • Information seeking model (Kuhlthau, 1991) • Information foraging theory (Pirulli and Card, 1999)
5	1/29 M	Types of information needs	Case, D. Chapter 5 “Information Needs, Motivations, and Use” (pp. 79-96)	

Class	Date	Topic	Required reading/viewing materials	Assignments Due
6	1/31 W	Information seeking behaviors	Case, D. Chapter 2.1 “Five examples of information seeking scenarios” (pp. 20-38)	
7	2/5 M	Relevance, usefulness and credibility judgments	Case, D. Chapter 6.4 “Identifying Relevant Information,” pp. 110-114 Rieh, S.Y. (2002). Judgment of information quality and cognitive authority in the Web. <i>Journal of the American Society for Information Science & Technology</i> , 53(2), 145-161.	
8	2/12 M	Incidental information acquisition	Case, D. Chapter 6.3 “Unintended or Unstructured Searching,” pp. 105-107 Assigned reading: Erdelez, S. (2005). Information Encountering. In Fisher, K. <i>Theories of Information Behavior</i> . (Chapter 29, pp. 179-184) (in Course Reserves)	Assignment: Personal Reflection Journal Entry <ul style="list-style-type: none"> • Due at 9 am prior to class session • Be prepared to informally discuss your journal in class
9	2/14 W	Information bias, barriers and satisficing	deLaplante, K. (2009). Cognitive Biases: What They Are and Why They're Important. (video link)	Come to class with a list of terms/concepts and definitions you have used to focus your studying for the First Module Exam.
10	2/19 M	First Module Exam		

Class	Date	Topic	Required reading/viewing materials	Assignments Due
11	2/21 W	Info behavior: Stage in life	Research by Social Role and Demographic Group, Case (2012). "By Demographic Group" (in Course Reserves)	Select one of five context-specific articles to review for the Information in Context Paper/Presentation
12	2/26 M	Info behavior: Personal and social contexts	Choose one category from Case "By Other Roles" in Chapter 10.2: Citizen or Voter (pp. 320-327) Consumer (pp. 327-330) Hobbyist (pp. 330-333) Gatekeeper (pp. 333-335) Patient (pp. 335-341) Students (pp. 341-343) Immigrants (pp. 343-345)	
13	2/28 W	Information behavior and decision-making in contexts	Case, D. Chapter 6.2 "Decision Making," pp. 100-104 Simonson, I. (2007). Decision making. In R. Baumeister, & K. Vohs (Eds.), <i>Encyclopedia of social psychology</i> . (pp. 225-229). Thousand Oaks, CA: SAGE Publications, Inc. (link) Decision-Making. (2008). In W. A. Darity, Jr. (Ed.), <i>International Encyclopedia of the Social Sciences</i> (2nd ed., Vol. 2, pp. 251-253). Detroit: Macmillan Reference USA. (link)	Assignment Due: Discussion Questions for Guest Speaker on Information Behavior and Decision-Making in Crisis Contexts

Class	Date	Topic	Required reading/viewing materials	Assignments Due
14	3/5 M	Searching Day	Guest Lecturer: Rebecca Vargha, SILS Librarian	Bring your laptops This day will consist of learning the various search tools available to students at the University of North Carolina.
15	3/7 W	Info behavior: personal crisis situations	Guest Lecturer: Dr. Rachael Clemens	Guest speaker Dr. Rachael Clemens, SILS Ph.D. '17 to discuss information behavior and decision-making in crisis contexts
March 9-March 18: Spring Break – No classes				
16	3/19 M	Crisis Situations Part Two	Westbrook, L. (2009). Crisis information concerns: Information needs of domestic violence survivors. <i>Information Processing and Management</i> , 45, 98-114. Read only: pp. 98-101 (just first sentence on 101 to finish Section 3) & pp. 109-112 (Sections 9 & 10)	
17	3/21 W	Personal Information Management Part 1	Jones, W. (2011). The Basics of PIM. In W. Jones (Ed.), <i>The Future of Personal Information Management</i> (pp. 21-33). (link)	
18	3/26 M	Personal Information Management Part 2: Applications and tools	Jones, W. (2011). Our Information, Always at Hand. In W. Jones (Ed.), <i>The Future of Personal Information Management</i> (pp. 35-47). (link)	
19	3/28 W	Information in Context Paper and Presentation	Information in Context Paper Analysis & Presentations	Assignment: Information in Context Paper Analysis and Presentations Due <ul style="list-style-type: none"> • Due at 9 am prior to class session • Student presentations during class

Class	Date	Topic	Required reading/viewing materials	Assignments Due
20	4/2 M	Information behavior and technology Open Access versus behind the pay-wall	Harnad, S., Brody, T., Vallieres, F., Carr, L., Hitchcock, S., Gingras, Y., Oppenheim, C., Hajjem, C., & Hilf, E.R. (2008). The access/impact problem and the green and gold roads to open access: An update. <i>Serials Review</i> , 34(1), 36-40. (link)	Assignment: Personal Reflection Journal Entry 2 <ul style="list-style-type: none"> • Due at 9 am prior to class session • Be prepared to informally discuss your journal in class
21	4/4 W	Introduction to User-centered Design (UCD)	Chapter 3 “Finding Out about the Users and the Domain” (pp. 37-55) in: Stone, D., Jarrett, C., Woodroffe, M. & Minocha, S. (2005). <i>User Interface Design and Evaluation</i>	
22	4/9 M	UCD: Tasks and work: task analysis	Chapter 4 “Finding Out about Tasks and Work” (pp. 57-87) in: Stone, D., Jarrett, C., Woodroffe, M. & Minocha, S. (2005). <i>User Interface Design and Evaluation</i>	
23	4/11 W	Usability Testing	Chapter 20 “Why Evaluate the Usability of User Interface Designs?” (pp. 423-436) in: Stone, D., Jarrett, C., Woodroffe, M. & Minocha, S. (2005). <i>User Interface Design and Evaluation</i>	

Class	Date	Topic	Required reading/viewing materials	Assignments Due
24	4/16 M	UCD: Knowledge of user interface design	Chapter 5 “Requirements Gathering: Knowledge of User Interface Design” (pp. 89-100) in: Stone, D., Jarrett, C., Woodroffe, M. & Minocha, S. (2005). <i>User Interface Design and Evaluation</i>

27	4/25 W	Ubiquitous and pervasive computing Wrap-Up and Review	Hilty, L. M. (2015). Ethical Issues in Ubiquitous Computing – Three Technology Assessment Studies Revisited. In: <i>Ubiquitous Computing in the Workplace: What Ethical Issues? An Interdisciplinary Perspective</i> . (pp. 45-60) (link)	
		Final Exam	Take-Home Exam Due May 8th by 8:00am	

Assignments

Information Model Presentation (due Session 4, Jan 24, 10% of grade)

- Groups of 3-4 students will choose from the following models to present.
- A description of the models below can be found in Marti Hearst's [Models of the Information Seeking Process](#). There is also a link in the Session 4 folder in "Resources" on our Sakai site.
 - Standard model of the search process (Broder, 2002)
 - Norman's cognitive execution-evaluation model (Norman, 1988)
 - Berry-picking model (Bates, 1989)
 - Information search process (Kuhlthau, 1991)
 - Information foraging theory (Pirolli and Card, 1999)
- Each group will have 5-7 minutes to present their model.
 - Present an **overview** of the model.
 - Discuss **strengths and weaknesses**.
 - Be sure to address **applications** of the model.
- Post a link to your presentation (e.g., Google Drive, Prezi) or upload your presentation file (e.g., PPT) by 9 am Session 4 in the appropriate Sakai forum. Only one member per group need upload the presentation.

Personal Reflection Journal Entry (5% for each reflection, two reflections for a total of 10% of grade)

- Incidental Information Acquisition (due Session 8, Feb 12)
 - Students should reflect (for about 800 words) about what information they acquired that week that they did not intend to (examples of incidental information acquisition).
 - Please post your reflections by 9 am in Sakai and be prepared to share your experiences with the class.
 - Due at 9 am prior to Session 8; late submissions will not be accepted.
- Open Access versus Behind the Wall searching (due Session 20, April 2)
 - Students will reflect (for about 800 words) about information they acquired through searching the UNC system and about information that are unavailable outside of that system.
 - Please post your reflections by 9 am in Sakai and be prepared to share your experiences with the class.
 - Due at 9 am prior to Session 20; late submissions will not be accepted.

First Module Exam (Session 10, Feb 19, 20% of grade)

- This midterm will cover content from Sessions 1 through 9. The exam will be in-class, open-note, and include variety of question types including short answers.

Discussion Questions for Guest Speaker on Personal Crisis Contexts (due Session 13, Feb 28, 5% of grade)

- Students should prepare TWO discussion questions for the guest speaker coming on Session 15, March 7.
- These questions should be thought provoking and go beyond surface-level topics. You will want to focus your questions on information behavior and decision-making in personal crisis contexts; specifically, birthmothers relinquishing their child for adoption, given our guest speaker's area of expertise.
- Please post your questions in Sakai in preparation for the guest speaker.
- Questions are due at 9 am prior to Session 13, late submissions will not be accepted. I will compile the questions and send them to the guest speaker in advance of Session 15.

Information in Context Paper Analysis & Presentation (due Session 19, March 28, Paper 15%/Presentation 10% for a total of 25% of grade)

- Students will select one of the following context-specific articles to review:
 - Gage, E. A., & Panagakis, C. (2012). The devil you know: parents seeking information online for pediatric cancer. *Sociology of Health & Illness*, 34(3), 444-458.
 - Gibson, Amelia. (2016). Building a progressive-situational model of post-diagnosis information seeking for parents of individuals with down syndrome. *Global Qualitative Nursing Research*, 3, 1-11.
 - Perttita, R. & Ek, S. (2010). Information behavior and coping functions of long-term unemployed people in Finland. *Libri*, 60, 107-116.
 - Bond, B.J., Hefner, V., & Drogos, K.L. (2009). Information-seeking practices during the sexual development of lesbian, gay, and bisexual individuals: The influence and effects of coming out in a mediated environment. *Sexuality & Culture*, 13, 32-50.
 - Dunne, J.E. (2002). Information seeking and use by battered women: A “person-in-progressive-situations” approach. *Library & Information Science Research*, 24, 343-355.

Paper Details

- The written portion of this assignment should be completed on an individual basis without consulting with your classmates. The complete paper should be a total of 5 to 6 double-spaced pages.
- Students will review the paper, paying particular attention to the methodology and conclusions.
- Students will summarize the paper (a maximum of two pages should be spent on summarizing the paper). Do not plagiarize. Cite when you are directly referencing an original idea in the paper. Use your own voice as much as possible in your summary.
- Students will address the following questions:
 - How do the conclusions compare with the information behavior models and theories we have been discussing in class?
 - Do you think their findings could be applied outside of the discussed context? Which contexts?
 - What impact do you think the context had on information behaviors?
- Students will propose a follow-up study.
 - The follow-up study could be designed to study the phenomenon in a different context or study a new phenomenon in the same context.
- Due at 9 am prior to Session 19, late submissions will not be accepted.

Presentation Details

- On the day the paper is due (Session 19), students will present a summary of their paper to the class.
- This is a formal presentation. Please have slides prepared in advance.
- You will have 5 minutes to present your paper. Depending on the number of students in the course, approximately 10 students will present in-person in class, and the remaining number of students will have the opportunity to create a video presentation.
- All students should be prepared to engage with each other, ask relevant questions, and participate in discussion.

Final Exam (Due May 8th by 8:00am, 25% of grade)

- The final exam will focus on content from the third module (Sessions 20 through 28) but will build on concepts discussed throughout the semester. There will be varied question types including short answer. The exam will be a take-home, open-note exam due May 8th by 8:00am. More information about the final exam will be distributed closer to the date.

Participation and Attendance (5% of grade)

- Students are expected to attend each session, come to class having read the assigned readings, and participate in class discussions. There will be in-class writing, group discussions, peer commenting, and other activities that will count as part of your participation grade. You are expected to participate in all in-class activities.
- You may miss one day for any reason, no questions asked, and without penalty. If any unexpected problem arises for you during the course of the semester (serious illness, etc.), please let me know so we can discuss an appropriate plan. If you need to miss class because of a religious holiday, we can make alternative arrangements for this as well (please refer to the UNC Undergraduate Bulletin for details regarding this).

Course Policies

UNC Honor Code

It is your responsibility to read the Honor Code, which is available online at:

<https://studentconduct.unc.edu/sites/studentconduct.unc.edu/files/documents/Instrument.pdf>

The Honor Code, which prohibits giving or receiving unauthorized aid in the completion of assignments and exams is in effect in this class. Whenever you use the words or ideas of others, they should be properly marked as a quotation (and referenced) or the source of the ideas should be cited. APA citation format is required for assignments in this class.

Please contact the instructor if you have any questions about the application of the Honor Code to your work in this class. You can learn more about the UNC Honor Code at <http://honor.unc.edu> and about the Instrument of Student Governance at <http://instrument.unc.edu>.

Student Religious Observance Policy

UNC recognizes the diverse faith traditions represented and supports the rights of faculty, staff, and students to observe according to these. Under this policy, students are authorized up to two excused absences each academic year for religious observances. Please provide written notification to the instructor by the second week of classes. Students will be provided an opportunity to make up examination, study, or work requirements that may be missed due to religious observance. A more detailed policy can be found at: <http://catalog.unc.edu/policies-procedures/attendance-grading-examination/>

Professional Conduct, Preparation, and Attendance

In addition to the UNC Honor Code, I expect that you will demonstrate integrity and professionalism in your participation in this course and in fulfillment of all of your course assignments. This includes completing the assigned readings on the dates they are due, dedicating adequate time for your participation (both in-class and out-of-class), and putting forth effort, care, and thought in preparing for exams. This is a 3-credit hour course; thus, you should expect to spend about 6-9 hours per week on this course (excluding class time).

Specifically, I expect the following:

- Arrive on time and be prepared to participate fully in class
- Show respect for all members of this course and all comments and questions posed by them.
- Engage completely with class during the class session. Any student who cannot do this will be asked to leave and will lose participation points.

Instructions for Written Work

For all of your written work, the expectation is that the work is clearly labeled with your name on the top of the page and the description of the assignment. You should also name your file using a clear nomenclature. For example, if I submitted my information in context paper the filename would be "Vardell_InformationInContext.docx". I should be able to look at the file name and understand what the file is. Assignments without names will be returned ungraded.

Laptop Use and Cell Phones

It is acceptable to use your laptops for classroom purposes.

- Taking notes, conducting research required for activities, and other classroom-specific tasks.
- During class, students should not check e-mail, chat, play games, or perform other off-task activities.
- The computer should not become a barrier to interaction but instead should help facilitate the exchange of ideas and engagement.
- If I see that students are using their laptops for activities other than those pertaining to class, laptop use will be restricted.
- There will be times when I ask you to put your laptops away to participate in class discussions or other in class activities.

Cell phones are not permitted. Please turn your ringer off prior to class and have your phone out away for the entirety of class.

Email

Please check the Sakai site and your UNC email regularly for general updates about deadlines, feedback, and assignments. If you do not check your UNC email address regularly, please set up email forwarding to your preferred email account so that you do not miss any notices or feedback. Use the course's Sakai Forums for general questions and comments. For urgent or time-sensitive matters, please email me directly at meganv@ad.unc.edu

Email is a great way to communicate with me outside of class. It is particularly well suited for short answer and clarification questions. However, if you need assistance understanding a concept or an assignment, or have another potentially complicated question, then I ask that you make an appointment to talk with me in person. If you ask a question via email that I believe is better suited for in person discussion, then I will ask you to come in and speak with me. If you have questions about how your assignment was evaluated, please visit me in person to have this discussion.

It is also important to set appropriate expectations about how quickly I can respond to your email. I will try my best to respond to your email within a 24-hour period, but in some cases it may take 2-3 days. Please keep this in mind when you are scheduling your own activities, especially those related to assignments. If you wait until the day before an assignment is due to ask us a clarification question about the assignment, there is a good chance that you will not receive a response before the assignment.

Please identify your emails with the course in the subject line (i.e., INLS 203) and/or the body of the message. (This is good practice for all of your university communication.) Put your name on all attachments and assignments, or you may not get credit for your work. Please use a respectful tone and professional language in every email and posting, and always remember that email is ultimately a public venue and can be read by anyone anywhere.

Special Needs and Students with Disabilities

If you need an accommodation for a disability or have any other special need, please make an appointment to discuss this with me early in the semester. My contact information is listed at the beginning of this syllabus. Also, please contact UNC Accessibility Resources & Services at (919) 962-8300 or email ars@unc.edu

Diversity Statement

In support of the University's diversity goals and the mission of the School of Information and Library Science, SILS embraces diversity as an ethical and societal value. We broadly define diversity to include race, gender, national origin, ethnicity, religion, social class, age, sexual orientation, and physical and learning ability. As an academic community committed to preparing our graduates to be leaders in an increasingly multicultural and global society we strive to:

- Ensure inclusive leadership, policies, and practices;
- Integrate diversity into the curriculum and research;
- Foster a mutually respectful intellectual environment in which diverse opinions are valued;
- Recruit traditionally underrepresented groups of students, faculty, and staff; and
- Participate in outreach to underserved groups in the State.

The statement represents a commitment of resources to the development and maintenance of an academic environment that is open, representative, reflective, and committed to the concepts of equity and fairness. (*Taken from:* <http://sils.unc.edu/about/diversity>)

If you would like to let me know about your preferred pronoun, please send me an email or you are welcome to talk with me before or after class or send me an email. For a list of gender non-specific bathrooms, please go to:

<https://lgbtq.unc.edu/resources/resource/resource-guidesgender-non-specific-bathrooms-campus>

Grading Policies

Grade Range	Definition *
A = 94-100% A- = 90-93.9%	A: Mastery of course content at the highest level of attainment that can reasonably be expected of students at a given stage of development. The A grade states clearly that the student has shown such outstanding promise in the aspect of the discipline under study that he/she may be strongly encouraged to continue.
B+ = 87-89.9% B = 84-86.9% B- = 80-83.9%	B: Strong performance demonstrating a high level of attainment for a student at a given stage of development. The B grade states that the student has shown solid promise in the aspect of the discipline under study.
C+ = 77-79.9% C = 74-76.9% C- = 70-73.9%	C: A totally acceptable performance demonstrating an adequate level of attainment for a student at a given stage of development. The C grade states that, while not yet showing any unusual promise, the student may continue to study in the discipline with reasonable hope of intellectual development.
D+ = 67-69.9% D = 64-66.9% D- = 60-63.9%	D: A marginal performance in the required exercises demonstrating a minimal passing level of attainment for a student at a given stage of development. The D grade states that the student has given no evidence of prospective growth in the discipline; an accumulation of D grades should be taken to mean that the student would be well advised not to continue in the academic field.
F = 0-59.9%	F: For whatever reasons, an unacceptable performance. The F grade indicates that the student's performance in the required exercises has revealed almost no understanding of the course content. A grade of F should warrant an adviser's questioning whether the student may suitably register for further study in the discipline before remedial work is undertaken.

*These definitions are from: <http://www.unc.edu/faculty/faccoun/reports/2000-01/R2001GradingStandardsAddendum.htm>

Please note this syllabus is subject to change.

This course design was a collaborative effort between Rachael Clemens, Angela P. Murillo, Emily Vardell, and Megan Threats.
