## Health Seeking Behavior

### ARVs and cd4 / viral load.

Hi, i am a HIV+ foreigner planning to travel to Thailand, and i would like to ask a few questions regarding your healthcare facilities. I am currently prescribed Atripla in my home country but I will need to purchase more of this whilst in Thailand. I also would like to monitor my cd4 / viral load whilst I am in Thailand. Could you please tell me what kind of documentation from my home country I will need to do this? is a prescription letter from my doctor enough? Thanks in advance.

### Just tested poz... what now?

I've just tested positive. The doctor suggested I get some additional tests (liver function, blood counts, etc) when he notified me of my test results, but I was too upset to do anything else at the time. Since it was at a hospital and I'm not Thai, I would also have to pay for everything (about 5,000 baht) which I really don't have right now. I know that I can get medicine at the clinic there at a cheaper price... but can these other tests be done there too? If so, what do I need to do? Do I make an appointment or just walk-in? I don't live in BKK so I would need to travel down there for whatever. Honestly... I'm just a bit in shock still and just don't know what I need to do to start the whole process for treatment. Thanks!

### Some questions about PrEP-30

Dear sir/madam, I am a foreigner. I have some questions about the PrEP-30 program at the Anonymous Clinic. I list as below: 1. May I know what is the service hour for PrEP-30? 2. Do I need to bring my passport or any other documentation? 3. Do I need to make an appointment in advance? If the answer is yes, in which way I can make an appointment (by phone? by e-mail? by website?) 4. Can you describe briefly about what I should do when I arrive Anonymous Clinic? (I guess I have to go to MSM clinic on 1st floor, but then?) 5. How long will it take for the whole procedure of PrEP-30 when we visit anonymous Clinic? 6. If I only visit Thailand for a 5-7 days-stay (or shorter), is that possible I can still get PrEP-30 service? (I meet your criteria of PrEP-30) Sorry for so many questions. Thank you for your reply. Best regards

### HIV treatment - patient from Philippines

Hello, I've been trying to call your phone but I was not lucky to get in. I'm planning to go your clinic this coming January 14, 2015. I would like to confirm if how many days it take to complete the process and getting all the results and the medicines prescribe. Because I need to check if what day will I need to book my return trip to Manila. Also, if you can assist me on the following items: 1) What airport is near the clinic? 2) What hotel is near the clinic? 3) How much is the total cost of the laboratory, consultation and medicines? 4) What is the frequency of visit in Thailand once treatment has been started? Appreciate your positive reply ASAP, thanks.

### Purchasing Truvada from Anonymous Clinic?

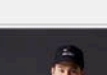

Hi there, I live outside Thailand, and I have a prescription for Truvada for PrEP, however I am unable to afford the cost of Truvada in my country. Can I purchase Truvada or Ricovir-EM from the dispensary at the Anonymous Clinic? How much can I purchase at once?

### HIV relocating to Bangkok

Hi - I am given an opportunity to relocate to Bangkok but what is holding me back is that I have been tested positive. I am scared that my potential employer will find out about my status as I feel that there's still discrimination in the society that we live in. Is HIV test a must? And if I have the right to refuse a HIV test? What implication will I get myself into with the local regulation for being positive?
